The accompanying notes are an integral part of these financial statements.

1. Statute of incorporation and nature of activities

Delta Resources Limited (the "Company") is a corporation continued under the *Business Corporations Act* (Ontario) incorporated on January 19, 1946. The Company changed its name to Delta Resources Limited from Golden Hope Mines Limited in June 2019. The Company's principal operations are mining properties and exploration expenditures made on properties that are not in commercial production. The Company is exploring its mining properties and has not determined whether or not the properties contain economically recoverable resources. The address of the registered office is 1718, Christine Crescent, Kingston, Ontario, Canada, K7L 4V4.

The Company's common shares are traded on the TSX Venture Exchange under the symbol DLTA, on the Over-The-Counter Bulletin Board (OTCBB) under the symbol DTARF and on the Frankfurt Stock Exchange under the symbol 6G01.

2. Statement of compliance with IFRS

The condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. The same accounting policies and methods of computation were followed in the preparation of these condensed interim financial statements as were followed in the preparation of the financial statements for the year ended December 31, 2024. These condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the financial statements for the year ended December 31, 2024 which have been prepared in accordance with IFRS, as issued by the International Accounting Standards Board.

The Board of Directors approved these financial statements on May 28, 2025.

Basis of preparation

These financial statements have been prepared on a going concern basis under the historical cost convention, unless specifically stated in the financial statements.

Functional and Presentation currency

These financial statements are presented in Canadian Dollars because that is the currency of the primary economic environment in which the Company operates, and is the functional currency of the Company.

3. Going concern

The Company has not yet determined whether its mining properties contain mineral deposits that are economically recoverable. The recoverability of mining properties is dependent on the discovery of economically recoverable reserves and resources; securing and maintaining title and beneficial interest in the properties; and the ability to obtain the financing required to complete exploration, evaluation, development and construction or the proceeds from the sale of such assets.

The Company had recurring losses in the current and prior years, including a net loss of \$1,469,274 for the three-month period ended March 31, 2025, has an accumulated deficit of \$58,406,875 (2024 - \$52,675,075) since its inception, and expects to incur further losses in the development of its business. Further, the business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in the discovery of economically recoverable reserves and resources and/or profitable mining operations.

3. Going concern – Cont'd

In addition to ongoing working capital requirements, the Company must secure sufficient funding for the exploration and evaluation programs and pay general and administrative costs. The Company's ability to continue as a going concern is dependent on being able to obtain the necessary financing to satisfy its liabilities as they become due. As at March 31, 2025, the Company has a working capital of \$2,593,653 (2024 - \$3,947,374). Management estimates that funds on hand will not be sufficient to meet the Company's obligations and commitments and to pursue and complete the development of its mining properties. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets may be less than amounts reflected in these financial statements.

The conditions and uncertainties described above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The Company's business plan is dependent on raising additional funds to finance operations within and beyond the next 12 months. Any funding shortfall may be met in the future in a number of ways, including, but not limited to, the issuance of new debt or equity instruments, reduction in expenditures and/or the introduction of joint venture partners and/or business combinations on terms which are acceptable to the Company. Although the Company has been successful in the past at raising funds, there can be no assurance the Company will be able to secure financing in the future or that these sources of funding will be available.

The accompanying financial statements have been prepared using assumptions applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. These financial statements do not reflect the adjustment to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary were the going concern assumption not appropriate. These adjustments could be material.

4. Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions based on currently available information that affect the reported amounts of assets, liabilities and contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual results could differ from those estimated. By their very nature, these estimates are subject to measurement uncertainty and the effect of any changes in estimates on the financial statements of future periods could be material.

In the process of applying the Company's accounting policies, management has made the following judgments which have the most significant effect on the amounts recognized in the financial statements.

Going concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgment. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There is a material uncertainty regarding the Company's ability to continue as a going concern.

*(in Canadian dollars)***7. Other liabilities related to flow-through shares – Cont'd**

Other liabilities related to flow-through shares represents the renunciation of tax deductions to investors following flow-through shares financing.

During the year ended December 31, 2024, the Company committed to pay, before December 31, 2025, \$5,000,000 in eligible exploration and evaluation expenses, in accordance with the *Income Tax Act* of Canada. These tax deductions were transferred to investors in flow-through share investments in 2024. In connection with this commitment, the Company incurred cumulative eligible expenses of \$2,027,455 as at March 31, 2025.

The disallowance of certain expenses by tax authorities could have negative tax consequences for investors or the Company. In such an event, the Company would indemnify each flow-through share subscriber for the additional taxes payable by such subscriber as a result of the Company's failure to renounce the qualifying expenditures as agreed.

Delta-1 / Eureka Property

On October 3, 2019, the Company announced the signing of an exclusive agreement to acquire a 100% interest in the new Eureka gold Discovery in the Thunder Bay Mining District of Ontario. During the year ended December 31, 2023, the Company completed the terms of the agreement and now owns 100% interest in the property.

- The vendor holds a 1.75% Net Smelter Return ("NSR") Royalty on the claims. Delta may buy back the first 0.75% at any time for seven years after the effective date of the agreement for \$500,000 and the remaining 1% Royalty at any time after the first 0.75% is purchased for \$4,000,000.
- Five legacy claims of the property are also subject to NSR Royalties ranging from 0.5% to 1% from an underlying agreement. Delta has the option to purchase 50% of this NSR for the sum of \$50,000.
- The agreement also includes advanced royalty payments starting 7 years after the effective date of the agreement.

In December 2019, the Company signed an agreement with the Ontario Exploration Corporation ("OEC") to buy back a NSR of up to 1% on its Eureka property in the Thunder Bay District, Ontario. Under the terms of the agreement, Delta purchased 50% of the OEC NSR at Eureka by paying the OEC the sum of \$50,000.

Delta has the right to purchase the second 50% tranche at any time by paying the OEC an additional \$50,000. Following the purchase of the second 50% tranche, Delta will have purchased the entire NSR Royalty currently owned by the OEC on the Eureka Property.

9. Exploration and evaluation activities – Cont'd**Delta-1 / Eureka Property – Cont'd**

The OEC currently owns between 0.5% and 1% NSR royalty on certain claims of the Eureka property. More specifically, the OEC owns a 1% NSR on the claims covering the Eureka Gold prospect, Matawin and Kaspar gold occurrences and a 0.5% NSR on the claims surrounding the Kaspar occurrence.

12. Contingent liabilities

The Company's operations are governed by governmental laws and regulations regarding environmental protection. Environmental consequences are difficult to identify, in terms of level, impact or deadline. At the present time and to the best knowledge of its management, the Company is in compliance with the laws and regulations. Any additional payment to liability already recorded that result from restoration costs will be accrued in the financial statements only when they will be reasonably estimated and will be charged to the earnings at that time.

13. Commitments

In June 2023, the Company was committed under a lease contract for its Ontario office, starting August 1, 2023 and expiring on July 31, 2024. The lease contract was renewed on August 1, 2024 for a one year period. Remaining minimum payments, totaling \$7,872 will be paid in 2025.

Under rules established by the Quebec Ministry of Natural Resources and Forests and Ontario Ministry of Mines, the Company has made sufficient exploration expenditures to maintain the exclusive exploration rights/claims in good standing on its properties in 2025.

14. Capital management

The Company defines capital as equity amounting to \$2,606,020 as at March 31, 2024 (\$3,964,844 as at March 31, 2024).

The Company's objectives when managing capital are to:

- ensure sufficient liquidity to support its financial obligations and execute its operating and strategic plans;
- maintain financial capacity and access to capital to support future development of the business while taking into consideration current and future industry, market and economic risks and conditions; and
- utilize short term funding sources to manage its working capital requirements.

The Company has no externally imposed restrictions on capital. There were no significant changes in the Company's approach to capital management during the three-month ended March 31, 2025.

15. Loss per share*Basic loss per share*

Basic loss per share is computed by dividing net loss for a period by the weighted average number of common shares outstanding during that period.

Diluted loss per share

Diluted loss per share is computed by dividing net loss for a period by the diluted number of common shares. Diluted common shares includes the effects of instruments, such as share stock options and warrants, which could cause the number of common shares outstanding to increase.

Notes to financial statements

For the three-month period ended March 31, 2025

(in Canadian dollars)

15. Loss per share – Cont'd

The Company reported a net loss for the periods ended December 2024 and 2023; the Company has accordingly presented basic and diluted losses per share, which are the same, on a single line in the statements of loss and comprehensive loss. Diluted loss per share did not include the effect of share purchase stock options and warrants as they were anti-dilutive.

16. Financial instruments

Credit risk is the risk that another party to a financial instrument will cause a financial loss for the Company by failing to discharge an obligation. The Company is exposed to credit risk with respect to cash, cash equivalents and other receivables. The carrying amount of these financial instruments represents the Company's maximum exposure to credit risk. Cash are composed of deposits with a Canadian financial institution.

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.

	Carrying amount	Contractual cash flows	0 to 6 months
	\$	\$	\$
Accounts payable and accrued liabilities	677,124	677,124	677,124

The fair value of cash, other receivables, accounts payables and accrued liabilities approximates their carrying value due to their short-term nature.

17. Subsequent event
