Delta Resources Limited

(An exploration stage company)

Notes to financial statements

For the three-month period ended March 31, 2026 and 2025

(in Canadian dollars)

1. Statute of incorporation and nature of activities

Delta Resources Limited (“Delta” or “Company”) is a corporation continued under the *Business Corporations Act* (Ontario) incorporated on January 19, 1946. The Company’s principal operations are mining properties and exploration expenditures made on properties that are not in commercial production. The Company is exploring its mining properties and has not determined whether or not the properties contain economically recoverable resources. The address of the registered office is 36, Lombard street, Floor 4, Toronto, Ontario, Canada, M5C 2X3.

The Company’s common shares are traded on the TSX Venture Exchange under the symbol DLTA, on the Over-The-Counter Bulletin Board (OTCBB) under the symbol DTARF and on the Frankfurt Stock Exchange under the symbol 6G01.

2. Statement of compliance with IFRS

The condensed interim financial statements of the Company have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. The same accounting policies and methods of computation were followed in the preparation of these condensed interim financial statements as were followed in the preparation of the financial statements for the year ended December 31, 2025. These condensed interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the financial statements for the year ended December 31, 2025 which have been prepared in accordance with IFRS, as issued by the International Accounting Standards Board.

The Board of Directors approved these financial statements on May 25, 2026.

Basis of preparation

These financial statements have been prepared on a going concern basis under the historical cost convention, unless specifically stated in the financial statements.

Functional and Presentation currency

These financial statements are presented in Canadian Dollars because that is the currency of the primary economic environment in which the Company operates, and is the functional currency of the Company.

3. Material accounting policies information

These unaudited condensed interim financial statements have been prepared following the same accounting policies used in the audited financial statements for the year ended December 31, 2025, unless otherwise specified hereunder.

Financial instruments

Financial assets at fair value through profit and loss (FVTPL)

Financial assets that are held within a different business model other than “hold to collect” or “hold to collect and sell” are categorized at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL.

Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

As at March 31, 2026, the investment in listed shares is included in this category of financial instruments.

3. Material accounting policies information – Cont'd

Financial instruments – Cont'd

Fair values of financial instruments

Financial instruments that are measured at fair value subsequent to initial recognition, if any, are grouped into a hierarchy based on the degree to which the fair value is observable as follows: Level 1: Quoted prices in active markets for identical items (unadjusted); Level 2: Observable direct or indirect inputs other than Level 1 inputs; or Level 3: Unobservable inputs (not derived from market data).

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from a stock exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis. Securities traded on stock exchanges are stated at market price based on the closing price on the relevant valuation day.

Where the fair values of investments recorded in the statement of financial position cannot be derived from active markets, they are determined using valuation techniques including the Black-Scholes models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing the fair values.

4. Going concern

The Company has not yet determined whether its mining properties contain mineral deposits that are economically recoverable. The recoverability of mining properties is dependent on the discovery of economically recoverable reserves and resources; securing and maintaining title and beneficial interest in the properties; and the ability to obtain the financing required to complete exploration, evaluation, development and construction or the proceeds from the sale of such assets.

For the three-month period ended March 31, 2026, the Company recorded a net income of \$212,744 (2025 – net loss of \$1,469,274), has an accumulated deficit of \$61,119,386 (2025 - \$58,406,875) since its inception, and expects to incur further losses in the development of its business. Further, the business of mining and exploration involves a high degree of risk and there can be no assurance that current exploration programs will result in the discovery of economically recoverable reserves and resources and/or profitable mining operations.

In addition to ongoing working capital requirements, the Company must secure sufficient funding for the exploration and evaluation programs and pay general and administrative costs. The Company's ability to continue as a going concern is dependent on being able to obtain the necessary financing to satisfy its liabilities as they become due. As at March 31, 2026, the Company has a working capital of \$189,194 (2025 - \$2,593,653). Management estimates that funds on hand will not be sufficient to meet the Company's obligations and commitments and to pursue and complete the development of its mining properties. If management is unable to obtain new funding, the Company may be unable to continue its operations, and amounts realized for assets may be less than amounts reflected in these financial statements.

The conditions and uncertainties described above indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. The Company's business plan is dependent on raising additional funds to finance operations within and beyond the next twelve months. Any funding shortfall may be met in the future in a number of ways, including, but not limited to, the issuance of new debt or equity instruments, reduction in expenditures and/or the introduction of joint venture partners and/or business combinations on terms which are acceptable to the Company. Although the Company has been successful in the past at raising funds, there can be no assurance the Company will be able to secure financing in the future or that these sources of funding will be available.

4. Going concern – Cont'd

The accompanying financial statements have been prepared using assumptions applicable to a going concern, which contemplates the realization of assets and settlement of liabilities in the normal course of business as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. These financial statements do not reflect the adjustment to the carrying values of assets and liabilities, expenses and financial position classifications that would be necessary were the going concern assumption not appropriate. These adjustments could be material.

5. Significant accounting judgments, estimates and assumptions

The preparation of financial statements requires management to make judgments, estimates and assumptions based on currently available information that affect the reported amounts of assets, liabilities and contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and judgments are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual results could differ from those estimated. By their very nature, these estimates are subject to measurement uncertainty and the effect of any changes in estimates on the financial statements of future periods could be material.

In the process of applying the Company's accounting policies, management has made the following judgments which have the most significant effect on the amounts recognized in the financial statements.

Going concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgment. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There is a material uncertainty regarding the Company's ability to continue as a going concern.

6. Marketable securities

243,902 common shares of Troilus Mining Corp. – level 1	370,731	-
	370,731	-

The Company measures fair value of the marketable securities by using the closing price on the last trading day of the period on the TSX Venture Exchange.

On February 17, 2026, the Company received 243,902 common shares of Troilus Mining Corp. valued at \$500,000 pursuant to the execution of an option agreement in connection with the Delta-2 / R-14 Property. As at March 31, 2026, the 243,902 common shares of Troilus Mining Corp. had a fair value of \$370,731. The decrease in value of \$129,269 was recognized as a net change in fair value of marketable securities expenses in statement of loss and comprehensive loss.

As at March 18, 2026, the Company issued a promissory note in the principal amount of \$400,000, bearing interest at a rate of 8% per annum. Interest shall be payable monthly, in arrears, overdue interest shall bear interest. The promissory note is maturing on October 15, 2026. The promissory note is secured by 243,902 common shares of Troilus Mining Corp. held by the Company. The fair value of these common shares as of March 31, 2026, is \$370,731. For the three-month ended March 31, 2026, the Company recorded interest expenses of \$1,140 included in account payable and accrued liabilities. In accordance with the promissory note agreement, an arrangement fee representing 1% of the principal amount was incurred. The Company recognized this fee as legal expenses in statement of loss and comprehensive loss.

Delta-1 / Eureka Property

The Company owns 100% of the Eureka Property which consist of 248 claims as of March 31, 2026. The property is subject to the following NSR Royalties:

- 1) 1.75% NSR Royalty on 245 claims. Delta may buy back the first 0.75% at any time before October 2026 for \$500,000 and the remaining 1% Royalty at any time after the first 0.75% is purchased for \$4,000,000.

The agreement also includes advanced royalty payments starting upon the earlier of the completion by Delta of a NI 43-101 compliant resource estimate on the Property or in October 2026. Delta shall make the following payments to the vendor, such payments to be deducted from any NSR payments to made to the vendor, if any: \$20,000 from 2026 to 2029, \$40,000 from 2029 to 2039 and \$500,000 in 2040.

- 2) The Ontario Exploration Corporation ("OEC") currently owns between 0.25% and 0.50% NSR royalty on certain claims of the Eureka Property. More specifically, the OEC owns a 0.50% NSR on the claims covering the Eureka Gold prospect, Matawin and Kaspar gold occurrences and a 0.25% NSR on the claims surrounding the Kaspar occurrence.

Delta has the right to purchase the NSR at any time by paying the OEC \$50,000. Following the purchase, Delta will have purchased the entire NSR Royalty currently owned by the OEC on the Eureka Property.

The claims are subject to a 2% NSR Royalty of which Delta can elect to buy back 1% at any time for \$1,000,000 and retain a first right of refusal on the remaining NSR up to \$4,000,000. There are no work commitments nor were any common shares of the Company issued.

Delta-1 / Pete's Backhoe Property

On February 15, 2024, the Company has entered into a five-year lease agreement on the Pete's Backhoe property, covering 33 hectares 750 metres west of the Eureka Gold Zone. Delta has made a cash payment on signing of \$80,000 and a cash payment of \$25,000 in February 2026 and 2025. The Company will pay \$25,000 for an additional year for a total cash consideration of \$155,000. Delta may end the lease at any time. During the 5 years lease, Delta may purchase the property at any time by paying 5 times fair market value. If Delta exercises its right to purchase, the vendor will retain a 2% NSR Royalty. Delta may buy back 1% NSR Royalty for \$1,000,000 and retains a first right of refusal on the second 1% NSR. There are no work commitments nor were any common shares of the Company issued.

Delta-1 / Laurie and Horne Properties

On May 1, 2024, the Company acquired the exclusive rights to acquire a 100% interest in the Laurie and Horne properties, covering approximately 24 square kilometres. Delta will assume agreements with a previous vendor to acquire a 100% in both properties. Upon signing of the agreement, Delta issued 1,400,000 common shares (already issued) of the Company to Sky Gold Corp. and pay the sum of \$75,000. Sky Gold Corp. will retain a 1% NSR Royalty. Delta will have the option to buyback a 0.5% NSR at anytime for \$1,000,000 and will have a right of first refusal on the second 0.5% NSR. Delta will also pay the original vendor the sum of \$350,000 over a three-year period (\$50,000, \$100,000 and \$200,000 respectively in years 1, 2 and 3) and incur a total of \$1,000,000 in exploration expenditures over the same period. The terms are divided equally between both Laurie and Horne properties.

On August 22, 2024, the Company signed an Agreement with the original vendors of the Laurie and Horne properties in order to eliminate the future cash payments of \$350,000 and work commitments of \$1,000,000 over the next three years, included in the agreement signed in May 2024. Under the Agreement, Delta will acquire a 100% interest in both Laurie and Horne properties by issuing a total of 2,000,000 common shares (already issued) and issue 1,500,000 warrants (already issued) of Delta, at a price of \$0.12, for a period of 24 months. The original vendors will retain an NSR Royalty on the properties. The vendors retain a 1.75% NSR Royalty. Delta will have a right to buyback a 0.75% interest until October 2nd, 2026 for \$500,000 and the remaining 1% interest thereafter for the sum of \$4,000,000. Delta also retains a right of first refusal on any offer to buy any NSR interest by a third party after October 2nd, 2026.

Delta-1 / Band-Ore Property

On May 20, 2024, the Company entered into an agreement with Golden Share Resources Corporation acquiring the exclusive rights to earn a 100% interest in the Band-Ore property, covering approximately 2,115 hectares.

In June 2025, Delta elected to terminate its option agreement on the Band-Ore Property, which covered 2,115 hectares in Ontario. The decision to relinquish the property was made for strategic reasons, enabling the Company to concentrate its exploration efforts and financial resources on the more prospective sectors of the Delta-1 property package.

Diluted weighted average number of common shares	144,051,822	-

During the three-month period ended March 31, 2025, the Company incurred losses, therefore, all stock options and share purchase warrants were excluded from the diluted weighted average number of common share calculation since their effect would have been antidilutive.

16. Financial instruments

Credit risk is the risk that another party to a financial instrument will cause a financial loss for the Company by failing to discharge an obligation. The Company is exposed to credit risk with respect to cash and other receivables. The carrying amount of these financial instruments represents the Company's maximum exposure to credit risk. Cash are composed of deposits with a Canadian financial institution.

Liquidity risk is the risk that the Company will not be able to meet its obligations as they become due. The Company's ability to continue as a going concern is dependent on management's ability to raise required funding through future equity issuances. The Company manages its liquidity risk by forecasting cash flows from operations and anticipating any investing and financing activities. Management and the Board of Directors are actively involved in the review, planning and approval of significant expenditures and commitments.
